When you think of individuals who reach legendary status in Florida horticulture and also achieve international fame very few can compare with Crafton Clift. Crafton is a passionate and eccentric character who has devoted his life to studying, growing and preserving fruit varieties and vegetables.

Berto Silva is a native of northeast Brazil. He is a collector of rare tropical and sub-tropical fruit trees. Hopefully, many of you were able to attend part 1 of Berto's previous presentation at our September, 2014 meeting. He will present part 2 of that presentation.

Berto and Crafton are close friends and both share the same passion for fruits and vegetables. It should be an entertaining and informative meeting.
